THE LOW COST GYM SECTOR

- The emergence and growth of the low cost gym market can be attributed to harsh economic times, an increasingly competitive market and a consumer demand for value for money
- The staffing model does not require onsite receptionists and administration staff. All staff are qualified Gym Instructors (REPs, Level 2) or Personal Trainers (REPS, Level 3). All staff are member facing
- Meeting member service, cleanliness and safety expectations are core values
- Member surveys show that the Gym is attracting new groups to the fitness sector including shift workers, students, retired people and low income groups (more information available on request)
- The low cost market sector did not exist 10 years ago and according to the 2015 State of the UK Fitness Industry Report, it now accounts for nine per cent of all private clubs and 24 per cent of the private sector membership
